PMC Technology A/S, Lammefjordsvej 2, 6715 Esbjerg N, Tel. +45 75 14 44 44, Fax. +45 75 14 45 45, [www.pmcgroup.se](http://www.pmcgroup.se), [info@pmctechnology.dk](mailto:info@pmctechnology.dk)

PMC Technology A/S is part of the leading Scandinavian hydraulics group, PMC Group. In addition to Scandinavia, the group operates in China, the US, India, Qatar and Poland – companies which services are available to our customers and divisions through PMC Technology A/S. In Denmark there are approx. 175 employees, primarily in Soeborg and Esbjerg.

The company has three divisions which handle relations with external customers. Each division offers unique and specialised professional skills, i.e.:

**PMC Windsyn** services all customers, Danish as well as international, within Wind Power Energy.

**PMC Technology** services all industrial customers with hydraulic systems, components, etc. The customers are partly Danish industrial customers and partly international OEM customers.

**PMC Hydropower** services all Off shore and Maritime customers as well as customers requiring service and maintenance.
